

Statement by Roger G. Noll
Professor Emeritus of Economics
Stanford University

February 27, 2021

As someone who has published two articles in the *International Review of Law and Economics*, I am saddened and dismayed that the *Review's* review and editorial process is so unreliable that it would publish this article, "Contracting for Sex in the Pacific War," by Professor Ramseyer. I now regret my prior decisions to publish in this journal.
